## UNDERSTANDING HOW YOUR DATA IS PROCESSED IN 5 KEY POINTS

### WHAT IS YOUR DATA USED FOR?

At different stages of your insurance, we collect information from you or through your insurance broker or your company.

#### WHEN YOU PURCHASE THE INSURANCE AND DURING THE LIFE OF YOUR PLAN

> **To analyse your insurance needs**, when you request a quote or want to take out an insurance plan so that we can provide you with the most appropriate response.

> **To manage and implement your insurance plan**, for example when adding an endorsement, calculating and collecting your premiums, managing your claims and handling any complaints.

#### THROUGHOUT OUR RELATIONSHIP

##### > **To offer you products and services to meet your requirements**

For our mutual benefit, we continually measure and improve the quality of our services. To help us do this, your letters, emails and telephone calls may be recorded and analysed.

The same applies to our products to help us improve them, create new ones and offer them at the fairest rates. To help us do this, we use your data for statistical and actuarial purposes.

##### > **To go further in our relationship**

For our benefit, we may contact you by email, phone or post to offer you April products and services. You may at any time update your contact preferences and, where required, opt out of marketing communications as described below (see § *What are your rights on page 2*).

If you agree, you may also receive offers from our partners by email, phone or post.

In addition, if you want to refer a friend or family member, your data and the data of the person you referred will be used to provide you with rewards.

##### > **To help us combat insurance fraud**

It is in our interest to be able to detect attempted fraud in order to avoid paying unjustified claims. This helps maintain premiums at a level which is appropriate to the covered risks and to take legal action if required.

### To help us combat money laundering and the financing of terrorism

To meet the requirements of the French Monetary and Financial Code, we perform due diligence to combat money laundering and the financing of terrorism and to enable the application of financial sanctions. To help us do this, we may need to ask you for a copy of your identity document.

In our departments, only persons who need to have information about you as part of their duties have access to it.

#### > Depending on the purpose, we send your data to the following organisations:

- Our partners to receive their offers of products and services.

### WHERE IS YOUR DATA PROCESSED?

Your data is processed by us and by our service providers within the European Union. However, it may, under supervision, be transferred outside that area. These transfer rules can be sent to you on request by our Data Protection Officer.

### HOW LONG IS YOUR DATA USED FOR?
